
Lloydminster Catholic School Division Internet and Media Release

Our schools have created web sites to share administrative information and to highlight and display class projects and activities. Student work is sometimes used in the portrayal of specific student achievement.

Lloydminster Catholic School Division follows certain web site development guidelines. As part of these guidelines, we require parental consent for the release of student work or their picture posted on any school web site. Parents should note the following:

- The identification of student work will be by first name, last initial, and grade only.
- Our school division web site is located at <http://www.lcsd.ca>
- This form must be completed annually.

As well, the media covers school projects and activities, which may involve interviewing students, using their picture and/or their written work. Parents should note that the media will use the child's full name.

1. Parent Consent for Student Work Release for Internet display:

- _____ Permission IS granted to display the work of my child on the school, division or teacher selected websites.
_____ Permission IS NOT granted to display the work of my child on the school, division or teacher selected websites.
