Background:

The Division is also committed to the health and safety of its employees, students, environment, and the public. The use of drugs and alcohol can create unacceptable safety risks to everyone at the workplace.

Employees have the right to work and students have the right to be educated in an environment free of substance abuse and with persons free from the effects of drugs or alcohol. Drugs and alcohol are hazards to the school environment and to the credibility and reputation of the School Division.

2. Addiction is defined as a compulsive substance use despite harmful consequence; intense focus on using a certain substance such as alcohol or drugs to the point that it takes over a person's life.
