MISSION STATEMENT:

School Community Council In Action

School Community Councils take actions to engage parents and the community to develop shared responsibility for child and youth learning and well-being, and to fulfill SCC responsibilities within the Provincial Education Plan: School Level Plan.

THE CENTRAL PURPOSE of SCC is to encourage and support the involvement of parents and community as partners to improve student learning and well-being. For example, by engaging parents in their children’s learning the council can enhance the family’s contribution to student success; by developing shared responsibility for well-being the Council can mobilize the community’s contribution to student health and social development; and by responding to student personal needs the Council can remove barriers to students’ access to learning opportunities.

EXAMPLE:

SCC may take on specific implementation responsibilities the Provincial Education Plan: School Level Plan. These might be to inform parents about ways they can help reinforce numeracy skills at home, to establish a literacy program, or to support community agencies in the development of providing physical activities within the community.
